

PHYSICAL AND CHEMICAL PROPERTIES AND CHANGES WORKSHEET

Identify which of the following are physical or chemical changes and properties.

Property/ Change	Physical	Chemical
Magnetism		
Temperature		
Flammability		
Density		
Malleability		
Sweat evaporating		
Butter melting		
Chopping a tree		
Burning a tree to ashes		
Reacting to an acid to give a gas		
Copper turning green		
Sugar mixing with water		
Sugar turning brown after heating		
Seltzer tablets fizzing		
Dynamite exploding		
Texture		
Dry ice smoking		

PHYSICAL AND CHEMICAL PROPERTIES AND CHANGES WORKSHEET

Identify which of the following are physical or chemical changes and properties.

Answers

Property/ Change	Physical	Chemical
Magnetism	✓	
Temperature	✓	
Flammability	✓
